

Palliative Charting & CPT Coding

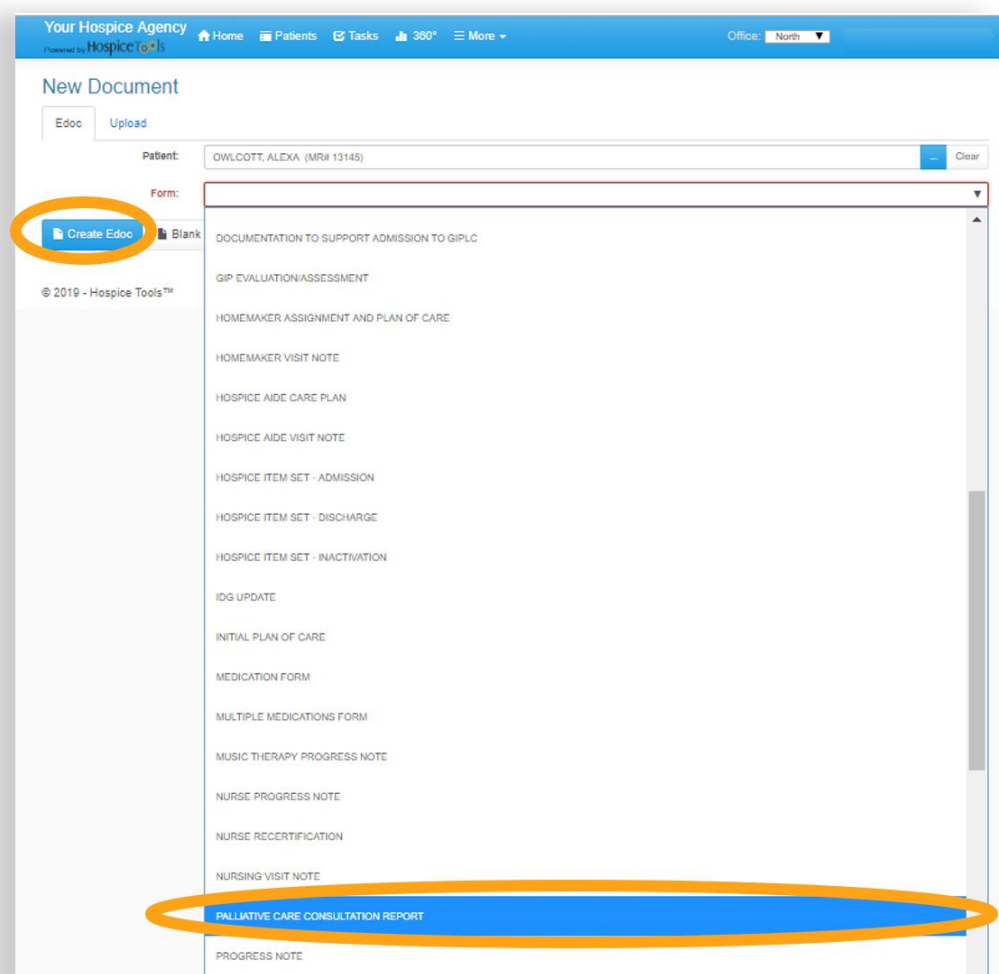

1. In the Patient's Face Sheet, the Intake Tab, make sure patient status is PALLIATIVE

(the 'admitted' option is for hospice only)

2. To chart, click CREATE eDOC & Select the form PALLIATIVE CONSULTATION REPORT.

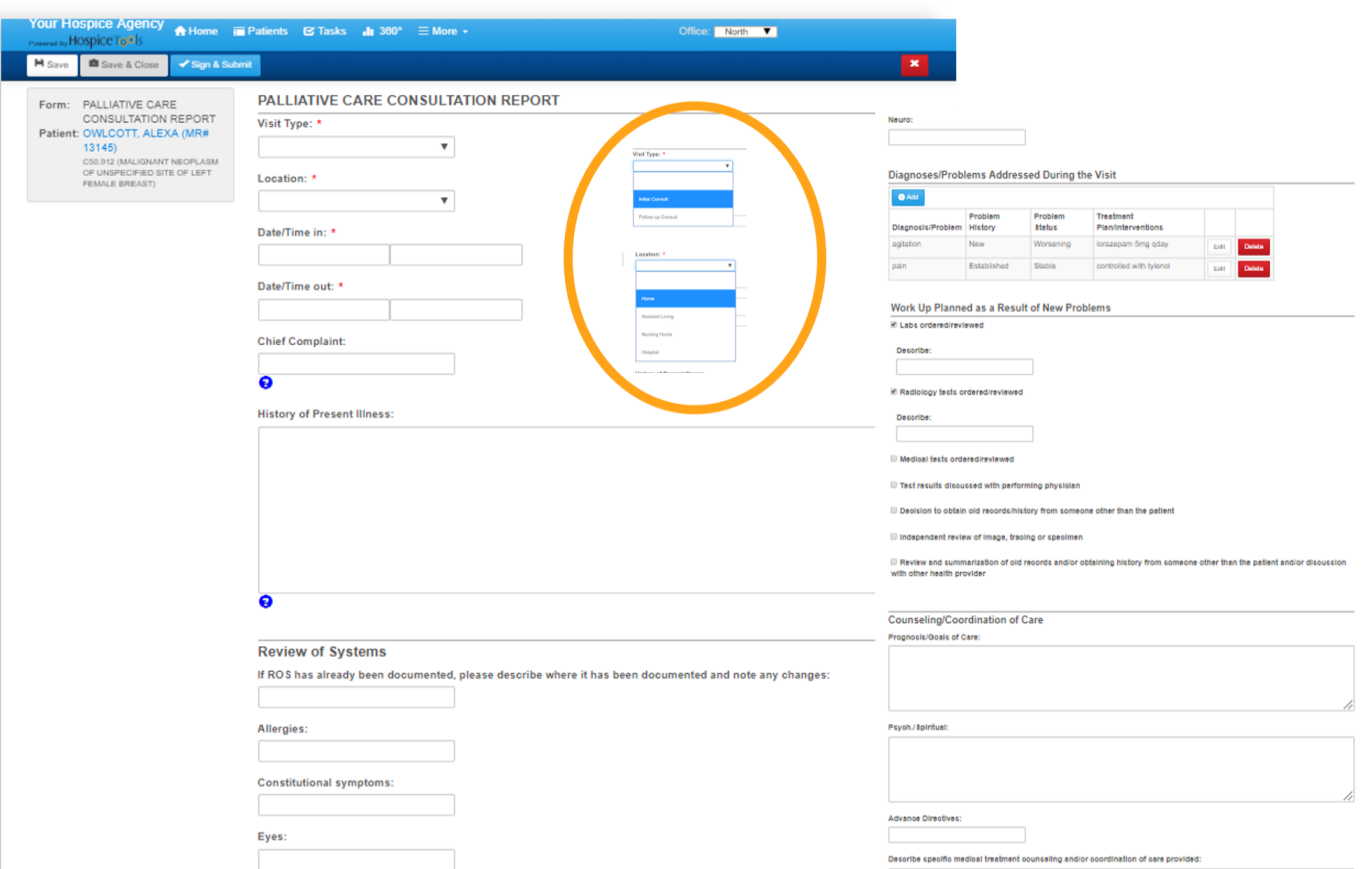

This button is located on your dashboard and under the eDoc Tab in the patient's chart

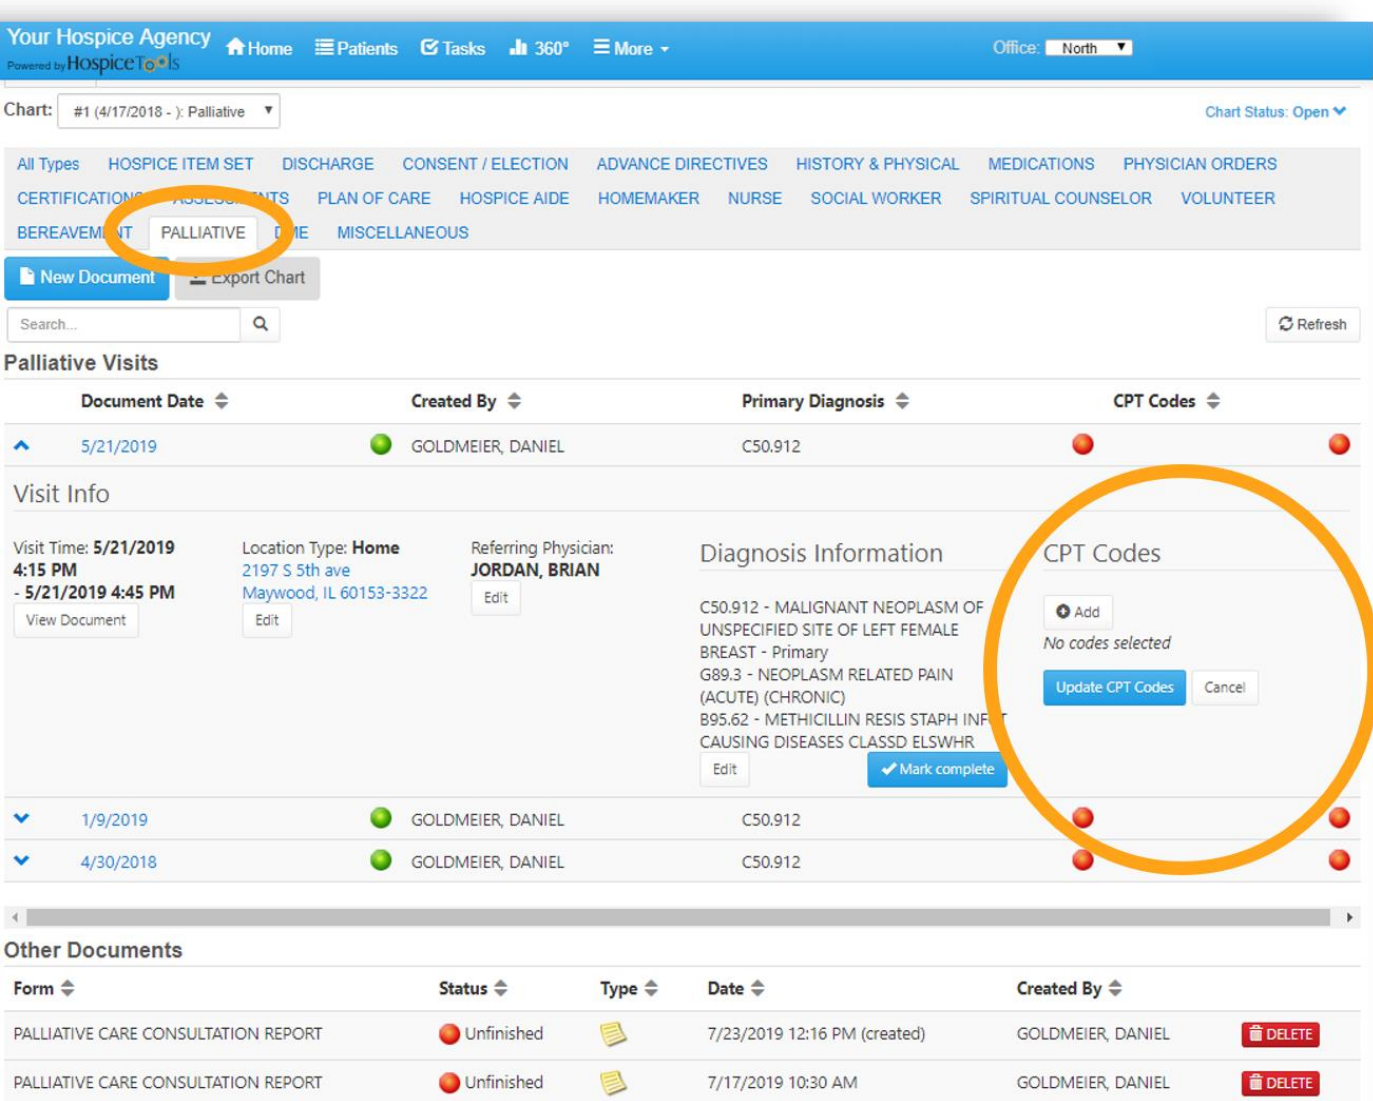

3. Select VISIT TYPE, LOCATION & complete relevant fields of the Palliative Care form. Then E-sign & Submit.

Note: Only a few fields are required. The rest are optional and completed as needed per patient.

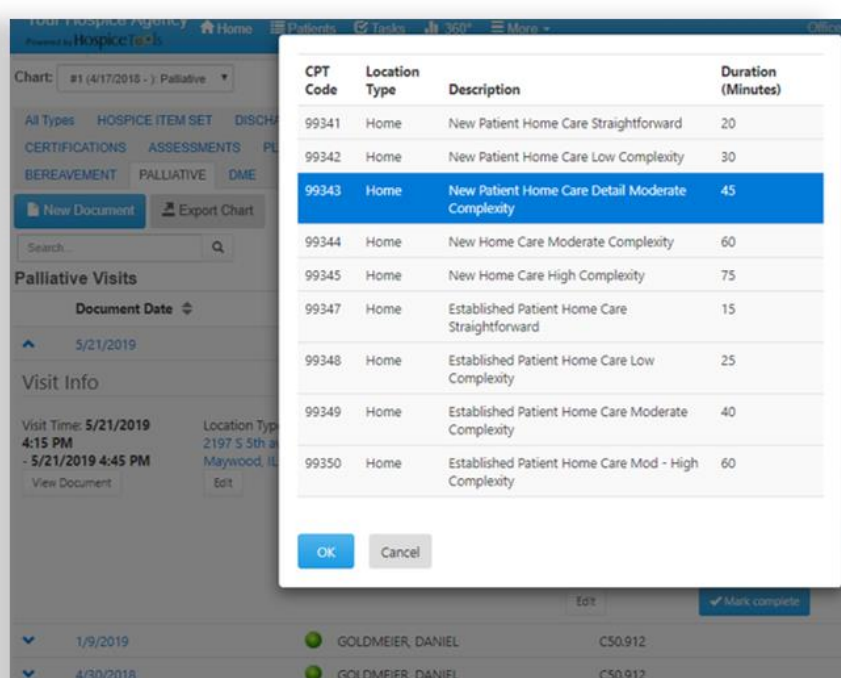

Forms, form functionality, & workflows can be customized

4. In the Patient's chart (EDOCS TAB) click the PALLIATIVE TAB. Select the completed palliative consult form and under CPT codes click ADD

5. Recommended CPT codes based on home or facility location will pop up. Select the relevant CPT code, click OK and MARK COMPLETE

The Consultation report should be done by an MD or NP (regulation dependent). Adding in the CPT codes can be done by anyone, office personnel, volunteer etc.
